

PRESS RELEASE

Hobbico adds Xiro Xplorers to drone line

The Xiro Xplorer provides Hobbico with a solid product offering ideal for two vastly different markets. For current and would-be pilots, it's an easy-to-master fast-track to flying success. For videographers and photographers, it's an exceptionally easy-to-use aerial platform equipped with a wide and sophisticated range of creative tools.

The 5.8GHz transceiver offers the flexibility of three skill level settings, as well as push-buttons that make takeoffs, landings and return to home trips easy and virtually effortless. Mounting a smartphone for iOS or Android™ provides a sharp, clear FPV (First Person Video) viewpoint and an easily referenced display of flight data. Pilots can also take advantage of "Follow me" and "Circle around me" flight modes to shoot flawless, 360° selfies.

Xplorers also make it easy for pilots to achieve stunning visual images with ease. Pilots can activate position and altitude holds simply by releasing the sticks for sustained, stable hovering. And with the sophisticated Waypoints system, pilots can program up to sixteen locations in advance – ideal for creating complex action sequences or a riveting collection of static images.

With a diagonal of 350 mm (approximately 13.75 inches), Xplorers are among the largest in the company's growing drone selection.

The Xplorer V is a complete package that includes the assembled drone, a video-stabilized 3-axis camera gimbal and a high-quality HD video/still camera. The Xplorer G includes a 3-axis gimbal, leaving camera equipment to the pilot's preference. The basic Xplorer requires a camera and gimbal, giving the pilot maximum cost and equipment control.

Specifications:

Diagonal Dimension (all): 350 mm (13.75 in)

Weight: 995 g (2.19 lb), basic Xplorer; 1.22 kg (2.65 lb) Xplorer G & V

Require: app (all); GoPro Hero 3 or 4 Camera (Xplorer G) & gimbal plus camera (basic Xplorer)

Available: TBA

Stock Number	Description	Advertised Price
XIRE0100	Xiro Xplorer (basic)	\$499.99
XIRE0200	Xiro Xplorer G w/3-Axis Gimbal for GoPro®	\$699.99
XIRE0300	Xiro Xplorer V w/3-Axis Gimbal & HD Camera	\$799.99

All Xplorer drones include:
